HONOLULU, H. I., THURSDAY, MAY 18, 1899.

PRICE 5 CENTS.

CUPID'S DARTS MENDED

There is much mystery in the Hoyt-McKee Company just now and if rumors which went the rounds of the clubs and social gatherings last evening can be credited, Miss Allene Crater the leading lady who played the widow in "Chinatown" with dash and spirit on Tuesday evening will, inside of a year return to Honolulu to live in peaceful matrimony.

A young society man, a graduate of Yale University met Miss Crater in Denver nearly six years ago. It was a case of love on both sides at sight, cruel parents, however, broke cupid's love darts and Miss Crater and her angel admirer drifted apart. Track of each other was lost until last Saturday morning Miss Crater was out shopping and on Fort street in front of Hollister & Co., she ran into the arms of her former admirer. Numerous demonstrations and congratulations were indulged in right there and then much to the amazement of onlookers and a renewal of the old pledge has since been made.

When Manager Cooke was questioned last evening concerning the affair he was in the company of Mr. Connor who laughed heartily when the reporter plied his questions, and remarked, "We carry no press agent, so the story must be correct."

Mr. Cooke admitted Miss Crater has been chaperoned by a handsome, manly young looking athletic chap but couldn't vouch the "fair Allene" would return here to wed any one, when her contract expires in a year's time with Messrs. Hoyt & McKee.

Miss Crater was away all last evening from the Hawaiian hotel where she was domiciled and could not be found to verify the excitement the rumor has caused society.

AN ADDITION TO KAIMUKI

Gear, Lansing & Co. have just closed a big land deal with Paul R. Isenberg by which they become the owners of a tract of land comprising 455 acres immediately adjoining the present Kaimuki tract, which has had such a boom. This land is the Waialae slope, the higher portions of which affords a view of this island all the way from the Waianae mountains to Koko Head and then across the channel to Molokai. The lower parts afford a view equally as good.

The lots in the Kaimuki tract have nearly all been sold and there is still a big demand for more. The intention of Gear, Lansing & Co. at the present time is to divide the new tract into lots and run the avenues and streets before making any move to sell. Already a large number of applicants have put in their orders for choice places.

The addition of the new tract to the old makes the whole of Kaimuki about 900 acres in extent. To more accurately describe the former it might be said that the land extends from the top of the ridge to the windmill.

Trees Are All Planted.

The coconut trees, 614 in number, have all been planted along the beach road and are doing very well. The only thing remaining now is protection for them. This work can be attended to without another meeting of the board. Arrangements will be made by which the trees will be watered twice a week.

Mail for San Francisco.

The Solace will finish coaling late today or early tomorrow forenoon. At all events she will sail for San Francisco early tomorrow afternoon and will take a mail. This will close at the Post Office at 12 o'clock noon.

FOR EXHIBIT AT OMAHA

Chamber of Commerce Accepts the Report of Special Committee.

Commissioners Are Nominated to Conduct the Exhibit — Ten Thousand Dollars Estimated for Expenses.

A special meeting of the Chamber of Commerce was held this morning to receive the report of committee on Hawaiian exhibit at the Greater America Exposition at Omaha this summer.

J. B. Atherton, president, was in the chair, others present being: J. G. Spencer, secretary, J. J. Egan, H. E. Waity, Robert Lewers, R. W. Shingle representing H. Waterhouse, J. P. Cooke, F. A. Schaefer, E. Sahr, B. F. Dillingham, E. C. Macfarlane, F. W. Macfarlane, W. G. Irwin, T. R. Walker and A. J. Campbell. W. W. Umsted, commissioner from Omaha, and L. A. Tharston were visitors.

Mr. Shingle read the report of the committee, which was accepted and ordered to be printed and distributed to members, for further consideration at a meeting next Monday at 2 p. m.

The report recommended in general an industrial and educational exhibit of the Hawaiian Islands. Other suggestions were for a service of Hawaiian coffee, the sending of the Hawaiian quintette club, the distribution of literature relating to the islands, etc.

It was recommended that Hon. A. S. Cleghorn be the president and Daniel Logan the secretary of the Commission to manage the exhibit. An estimate of \$10,000 for expenses was submitted.

The argument was used that the exhibit of coffee alone at last year's exposition at Omaha in results more than repaid the expense.

The Orphan.

"Married in the Dark" is a lurid midnight plot in which Jim Post mixes up and finally in the guise of a parson hitches up two eloping couples. The play is genuinely witty and humorous. "The Two Rivals" is another farce built on different lines but equally funny. Frank Barton was in excellent voice and acquitted himself well responding to a double encore.

It remained, however, for Miss Glorine to capture the audience in her spectacular transformation dance. Lole Fallor's mantle has surely fallen on the shoulders of this artist. The pictures, representing Geo. Washington, McKinley, Gladstone, ex-Queen Liliuokalani, Queen Victoria, King Kalakaua and the late Princess Kaiulani, as also the Hawaiian, American and British flags, to truthfully express a much harkneyed phrase fairly brought down the house. The mechanical effects are skillfully manipulated and the entire performance artistic to a degree. The other artists ably fitted their parts.

Chickens, \$15, dozen; milch cows from \$80 to \$150; horses, mules and vehicles at your own price. Received by Aloha just sighted off Koko Head. Honolulu Stock Yards Co., corner Alakea and Queen streets.

A leg of a white man floating in the water was seen by Sam Dowsett and another young man as they were on their way from Pearl City to Honolulu in a yacht last Sunday. Dowsett wished to throw a rope over the floating member and tow it to town, but the other young man objected.

Executive Officer C. B. Reynolds has placarded on offer of \$5 reward for the apprehension of anybody throwing stones at the Board of Health's building at Kaiaha. Hoodlums have broken \$100 worth of glass and sash on the premises within the past few months. Dr. Myers has frequently found his office there a perfect wreck.

CLOSING OF MURDER TRIAL

Mr. Robertson Begins Address to Jury for the Defendants.

Argument Will Take Two Days at Least—Motions Are Heard by Judge Stanley.

Judge Stanley has granted a motion for continuance of James J. Byrne vs. P. J. Voeller until August term. An exception to the ruling was noted by plaintiff. Kinney, Ballou & McClanahan for plaintiff; Magoon & Silliman for defendant.

In F. J. Testa vs. J. P. Kahahawai et al., Judge Stanley denied the motion of plaintiff objecting to the sufficiency of the surety. The motion for a new trial, made by defendants, was then argued. Achi & Johnson for plaintiff; A. G. Correa and J. T. De Bolt for defendants. The matter was taken under advisement.

A. G. M. Robertson this morning began his closing address to the jury on behalf of the five Japanese charged with murder in connection with the Kahuku riot. He will occupy the whole day. The prosecution will take another day, and then Judge Perry sums up the case. This is the eighth day since the jury was empaneled and sworn.

Death of William Gillespie.

William Gillespie, the Australia steward shot by George Wade, died at the Queen's hospital at a little after 2:30 o'clock yesterday afternoon. The funeral took place from the Queen's hospital at 11 o'clock this morning, the Rev. Father Valentin officiating. Interment took place in the Catholic cemetery.

Among those present at the funeral were employees of the firm of W. G. Irwin & Co., agents for the O. S. S. Co., together with friends of the deceased, of whom there are many in Honolulu. At the grave a picture of the coffin and floral tributes was taken.

Funeral of the Chiefess Auhea.

The funeral of the Chiefess Auhea took place from the late residence on Punchbowl yesterday afternoon, the Rev. V. H. Kiteat officiating. A large number of the friends were present. Interment took place back of the tomb in which are placed the remains of King Lunalilo. The body was buried there by consent of the board of trustees of the Lunalilo estate and is the very first burial in the Lunalilo plot since the death of that king.

President Dole rode through the public works building on horse back yesterday afternoon in search of Supt. Rowell.

Kamalo Sugar Co. stockholders are requested to send in receipts for first payment with list of names, etc. See New Today.

Waimanalo Sugar Co. stockholders will receive a dividend on Saturday, May 20th, at W. G. Irwin & Co.'s office. See New Today.

Don't go short of hose when you can get all you want at half price. Fifty cent hose at two bits a pair. See Pacific Import Co.'s ad on page 8.

The schooner Aloha from San Francisco is being towed into port as the BULLETIN goes to press. She sailed from San Francisco, May 5.

The skirmish drill of the N. G. H. regiment will take place close after daybreak on Sunday morning. It is expected that many town people will drive down to Remond Grove to see the maneuvers. Something military will be going on at the camp during its whole existence from Saturday to Sunday evening.

A NEW STOCK EXCHANGE

Meeting of Outside Brokers Being Held This Afternoon.

Present Board Too Exclusive—Will Be Nine Charter Members—Price of Seats Will Be Within Ordinary Means.

For some time past there has been a movement on foot toward the formation of a new stock board in Honolulu. It has been felt by the street brokers that they should be granted the privileges of the stock board and, finding the only one in existence here too exclusive, they have decided to organize a board that will give them a better show in the market.

A meeting is in progress at the BULLETIN goes to press the object of which is the formation of the new board. There are nine men concerned and these will constitute the charter members. At this meeting will be decided the price of a seat in the exchange, the place of meeting and all other business in connection with the movement.

In a very few days then Honolulu will see a new exchange in full operation and it may be mentioned in passing that the men concerned are all reliable business men who have money to back them.

It is probable that the price of seats on the new exchange will be considerably less than that charged by the exchange now in operation.

IS SORRY HE DID IT.

George Wade Regrets Gillespie's Death This Morning.

At about ten o'clock this morning and when all the other cases on the police court calendar had been passed on, Detective Kaapa was sent below to fetch Geo. Wade, who shot Gillespie, the Australia waiter who died in the hospital yesterday afternoon. It was fully five minutes before Kaapa appeared with the prisoner. The latter walked very feebly and showed plainly the anxiety he must needs have been experiencing since he shot Gillespie. He had not recovered fully from the wound in the head inflicted by the carbine in Evan's hands for he staggered and was given a seat in front of the Judge.

Deputy Marshal Hitchcock read the charge of murder in the first degree to the prisoner. It was then suggested by the prosecuting officer that the case go over until June 8, the day after the arrival back in port of the Australia. Asked if he did not think this would be the proper course to follow, Wade answered: "I suppose so."

The prisoner sat still for quite a while and then asked slowly: "Is that fellow dead?" Deputy Marshal Hitchcock answered that death had occurred yesterday afternoon, whereupon Wade said: "I am awfully sorry." He was about to say more but was stopped by Deputy Marshal Hitchcock who advised him not to open his mouth until the time set for him to appear again.

Old Building Being Moved.

The old building on Merchant street that has been occupied by David Dayton for many years, is being moved today to the premises of Russian Frank on Queen street. The building was sold to the present owner on the 11th inst.

Up till noon 185 voters had been registered since the beginning. About the first week in June the board will make a circuit of the country districts. On returning the board will register as many more of the "free and independent" in town as walk up before the close of sessions on June 30.

WAIHAWA SUGAR SCHEME

Eleele Plantation Bought for Half a Million Is Included.

Stock Will Be \$3,500,000 in Shares at \$20 Each—Flotation Within One Month from Date.

Wahiawa plantation scheme will be placed on the market for public subscription early enough, if possible, to have the stock certificates issued and the company organized by June 15.

B. F. Dillingham is the chief promoter and will conduct the flotation himself. He will make arrangements, probably in the Judd building, as will reduce inconvenience from crowding to the minimum.

The site of the projected new plantation is the well known pasture lands of the McBryde estate at Wahiawa on the Island of Kauai. It will also include the long established Eleele sugar plantation, occupying the seaboard in front, which has been bought from Hon. August Dreier.

It is proposed that the capital stock of Wahiawa plantation shall be \$3,500,000 divided into 175,000 shares of the par value of \$20 each.

The price paid for Eleele is \$500,000, in United States gold coin. Yet the entire property is to be offered the public. "There is not one dollar of promoters' stock," Mr. Dillingham says.

It is understood that the issuing of stock will be conducted on much the same lines as that of Olua.

Latest word from Wahiawa is that the well-boring continues with good prospects of striking water at no great depth.

PRINTING PRESS FALLS.

Late this forenoon, John Araila an employe of the People's Express Co., was severely cut about the head by the fall of a printing press that was being moved into the rooms of the Mercantile Printing Co. above John Nott's store on King street.

There were four men at work getting the press up the stairs after its transportation from the Oceanic wharf. Two were above and two below. The latter were Marshall and Araila. As the press reached the head of the stairs, the rope broke. Marshall had a crowbar in his hand and was prying underneath the press to help it up. This threw it over toward Araila who was immediately caught under the ton of iron. He rolled down the steps with the press, cutting his head in three places and spraining his wrist. By this time the other three men were on their feet and had the press fast.

The program of the Maui Racing Association appears under New Today in this issue.

The bark Mohican, which left San Francisco May 4, is off port as the BULLETIN goes to press.
